11/22/63
AFO

Enclosed for each office are four photographs depicting the window (marked by circle) of The Texas School Book Depository building from which the shots were fired. The X on one of the photographs marks the approximate location of the President's car when the shots were fired.

For the information of recipient offices, the Dallas Office has effected arrangements with film processing companies in Dallas, Texas, to include with each pack of film processed, a notice requesting the customer to contact the nearest FBI Office if their film contains photographs depicting the scene of the assassination of President KENNEDY.

For the further information of recipient offices, the fatal shots were fired from the corner window on the 6th floor, front, of a 7-story light red brick building. Any picture of the front of the building may show the window from which the fatal shots were fired on the extreme right side of the building. It may also be possible to identify the building by the words "Texas School Book Depository".
